

Vector is Growing!

New Division Announcement

January 1, 2009

We are pleased to announce, effective January 1st, 2009, Vector Group has opened a permanent Division in British Columbia. We have been working in the Lower Mainland Area for over 2 years, and have now completed the acquisition of a new office and warehouse. We have established a strong infrastructure for the BC Division, and have a Division Manager and Project Manager, along with experienced supervisory capabilities. The BC Division is officially registered under the company name “Vector Corrosion Technologies Ltd”, and will utilize the full array of Vector Group’s restoration capabilities.

The BC Division Manager, Torry Oram, brings with him over 15 years of construction experience, with specialty knowledge in Post-Tension Cable projects.

Graham Mazza, as the Project Manager, will report to Torry, and will be working closely with Torry to establish a foothold in South West British Columbia, focusing on the Post-Tensioned cable industry.

For more information on our repair capabilities, please contact Torry Oram, as follows;

British Columbia Office
208 – 669 Ridley Place
Delta, BC V3M 6Y9
